Summit:

The summit aims to unpack the concept of social justice in South Africa, its various dimensions, the pathways available to address social injustice and how best to leverage the opportunities presented by the SDG's, the NDP and the Constitution. Summit on day one is therefore focused on South Africa.

02

Conference:

The conference aims to address the question: To what extent can academia advance the global Social Justice Agenda and leverage social justice research that participants are already engaged in, with reference to the SDG's and the Global Human Rights Agenda
